HOME PHONE: _____ EMAIL ADDRESS: _____

NAME OF PARENT/GUARDIAN: _____

PHONE (DAYTIME): _____ (EVENING): _____

SHORT-ANSWER QUESTIONS

Please answer these short questions in a few sentences on a separate sheet of paper.
Your answers may be typed or neatly written.

1. Why are you interested in the Artemis Project and what topics would you like to learn about?
2. What subjects and activities interest you most?
3. Why do you think it's important for women to learn and contribute to computer science and technology?
4. Previous computer experience is NOT a requirement for this program, and it will not count for or against you. However, we would like to know if you have used a computer before, and if so, for what purposes? (E.g. e-mail, writing papers, playing games, etc.)
5. You have just been hired by the Brown Invention Department! They want you to create an invention to help address problems that people face. This could range from an everyday problem to one on a global scale. Describe why the problem you want to solve is important to you, what your invention is and how it will work.

I am sincerely interested in
participating in the Artemis
Project this summer.

Parent/guardian's signature: _____ Date _____

TEACHER RECOMMENDATION You can cut Part 3 off and give it to your teacher. We ask that you give it to a past or current teacher that you feel could tell us more about you, why you are a good candidate for the Artemis Project, and what qualities make you stand out, especially in an educational or cooperative setting. Please ask your teacher to seal the recommendation letter in an envelope, and return this envelope to us. Your teacher can also email us at artemis@cs.brown.edu.
