

Guide to Artemis

DATES:

Artemis will run from Wednesday, June 25 until Wednesday, July 30. Note that we will not be having camp on Friday, July 4th, in observance of Independence Day. We will also not have camp on Monday, July 14 so that students can use that day for doctor's visits, vacation, or other trips that might cause them to miss camp at another time.

GETTING TO ARTEMIS:

Artemis starts at 9:30 am and ends at 3:00 pm on most days. You may either arrange your own transportation (we've included driving directions), or you can use RIPTA passes, which we provide free of cost, to take a RIPTA bus. If you are using RIPTA, please refer to the guide to using RIPTA that is included in this mailing. To receive a RIPTA pass, you must tell us you need one in advance.

LUNCH:

Lunch will be provided for you **free of charge** in one of Brown's dining halls. You are also welcome to bring your own lunch, but this is not necessary.

FIELD TRIP DAYS:

The timing of Artemis will be different on field trip days.

On the field trip days (**July 2, July 9, and July 16 and July 23rd**) we **REQUIRE** that you arrive at the CIT by **9:00 am**.

On **July 2** (MIT Museum) and **July 9** (Boston Museum of Science), we will be returning back to Brown by **5 pm**. RIPTA-riders will need to find out what buses they can take at that time, and students with their own transportation will need to arrange to have someone pick them up then.

The reason we're extending the times on these field trip days is that we want the girls to get the most out of the field trips, and see everything these museums have to offer! Please let the coordinators know if these variations in arrival/departure times cause a major inconvenience for you and we will try to work something out.

We will be sending home letters with the students before every field trip, reminding them about what time they need to arrive and leave, and whether to bring anything special with them.

CONTACTING ARTEMIS:

To contact the Artemis coordinators, you can email us at artemis@cs.brown.edu.

The Artemis cell phone number is 617-784-8848. We will only be answering it on weekdays between 9:00 am and 5 pm.

If you can't reach us on the Artemis cell phone and it is an emergency, you may call the Computer Science Department at 401-863-7612 or 401-863-7600 to speak to an administrator.

What to Bring

What you should bring to Artemis:

- All the forms that require signatures from the **waiver packet** if you have not already mailed them.
- A sweater or sweatshirt (although it's hot outside, the computer lab we will be working in is air conditioned)
- A water bottle
- Sunscreen
- Pen, pencil, or other writing implement
- Notebook (optional)

What you should **NOT** bring to Artemis:

- Electronic games
- Portable audio devices such as iPods or other MP3 players
- Valuables, such as large amounts of money or expensive jewelry
- Weapons of any kind

Other items:

- Cell phones:
If you have a cell phone, you may bring it, but it must be **TURNED OFF** while you are at Artemis. If your parents need to contact you, they can call the Artemis cell phone at 617-784-8848.
- Food:
You may bring your own snacks if you wish, but we will be providing a snack each day. The only restriction is that no food is allowed in the computer lab.

Thanks for helping us to ensure that we all have a great summer!

Directions to the Watson Center for Information Technology (CIT)

From the South: From I-95 North, move into the right lane as you approach Providence and stay there. Follow signs for Exit 20, I-195 East, (DO NOT TAKE EXIT 19). Once on the ramp for I-195 East, move over all the way to the right as soon as possible. Take exit 1, Downtown Providence. Follow the exit ramp to the first light. Turn right onto Dyer Street. At the third light turn right onto College Street. At the next light, go straight up the hill. Continue straight at the stop sign halfway up the hill. At the top of the hill, where College Street intersects with Prospect Street, you will see Brown's Van Wickle Gates. Turn left onto Prospect Street. At the next light, turn right onto Waterman Street. At the second light, turn right onto Brook Street. Our red brick building, the CIT, will be on your right.

From the North: If traveling on I-95 South, move into the second lane from the far left as soon as you see the State Capitol building. Follow signs for I-195 East. Once on the ramp for I-195 East, move over all the way to the right as soon as possible. Take exit 1, Downtown Providence. Follow the exit ramp to the first light. Turn right onto Dyer Street. At the third light turn right onto College Street. At the next light, go straight up the hill. Continue straight at the stop sign halfway up the hill. At the top of the hill, where College Street intersects with Prospect Street, you will see Brown's Van Wickle Gates. Turn left onto Prospect Street. At the next light, turn right onto Waterman Street. At the second light, turn right onto Brook Street. Our red brick building, the CIT, will be on your right.

From the East: Follow I-195 West until exit 2, South Main Street. Travel down South Main Street to the first light. Turn right onto College Street. At the next stop sign, go straight up the hill. At the top of the hill, you will see Brown's Van Wickle Gates. Turn left onto Prospect Street. At the next light, turn right onto Waterman Street. At the second light, turn right onto Brook Street. Our red brick building will be on your right.

From the Northwest: Follow Route 146 to I-95 South. Once on I-95 South, follow the directions above (from the north and south)

To view a map of the campus: http://brown.edu/Facilities/Facilities_Management/maps
The CIT is labeled Watson Center on this map.

Guide to RIPTA

If you have informed us that you will be using RIPTA buses, we will be providing you with a pass.

You should plan to get off at the “Tunnel and Thayer” bus stop—it is only two blocks away from the Watson Center for Information Technology (we call it “the CIT”), where Artemis is held. Be sure to find a bus that will get you there a few minutes before 9:30 am so you will have time to walk to the CIT.

If you need help figuring out how to get from your home to Tunnel and Thayer, we recommend consulting the RIPTA web site (www.ripta.com) and Google Maps Transit (www.google.com/transit), which helps you plan a trip using public transportation. The address of the CIT is 115 Waterman St., Providence, RI 02912. If you don’t have Internet access or if you need more help learning to use RIPTA, just call us (617-784-8848) and we would be more than happy to help you.

For the **first week only**, the Artemis coordinators will wait for you at the Tunnel and Thayer bus stop starting at 9:10 am and then walk you to the CIT so you can learn the way. It’s not hard—only a two block walk. After the first week though, you’ll be responsible for getting yourself to the CIT by 9:30 am.

DIRECTIONS FROM KENNEDY PLAZA:

1. Many of you may need to go to Kennedy Plaza and transfer to another bus that will take you to Tunnel and Thayer. The following buses have departure times that are appropriate for the start time of Artemis (the departure times listed are the times the bus leaves Kennedy Plaza):

route 35, Beverage Hill Avenue (9:08 a.m.)

route 42, Hope Street (8:49 a.m., 9:07 a.m.)

route 49, Camp Street (8:44 a.m.)

route 92, Green Line trolley to Fox Point/East Side Marketplace/East Side (9:02 a.m., 9:20 a.m. The trolley schedules are often irregular so don’t count on these departure times, but the trolley will definitely come every 20 minutes.)

route 40, Butler/Elm Grove (9:18 a.m.)

route 35, Rumford (9:10 a.m.)

2. Get off the bus on the first stop after the long tunnel. For the first week, we’ll be waiting for you at the bus stop. If we’re not there, wait outside Starbucks.
3. Walking directions to the CIT from Tunnel & Thayer (after the first week):

Take a right onto Thayer Street—you will walk past the Starbucks. Go through the lights at the intersection of Waterman and Thayer Streets. Cross the street so that you are on the left side.

You will see the Sciences Library—it's the tallest building around, 14 stories high and made of tan concrete. The CIT is directly behind the Sciences Library. It's a red brick building shaped like a cube. The sign on the building will say "Watson Center for Information Technology."

Note: It is possible to walk to the CIT from Kennedy Plaza, but the Artemis coordinators strongly prefer that students take the bus to Tunnel and Thayer. If students choose to walk, it is their responsibility to know the way.

INSTRUCTIONS FOR TRANSFERRING BUSES

You may need to ride more than one bus to get to Artemis—in particular, you may need to ride a bus to Kennedy Plaza, and then switch to another bus or trolley that will take you up to Tunnel and Thayer. If this is the case, ask the bus driver of the first bus about a **transfer slip**, and use the transfer slip to get onto the second bus or trolley. The transfer slip will cost 10 cents. If you have to get a transfer slip, just tell one of the coordinators and we will reimburse you.

If using RIPTA seems confusing or if you have any questions at all, just call or email us!
